

## Supplements and Percent of Demand

The Supplement Inventory screen is where you can edit the amount of each supplement on-hand, bought, sold or fed on farm.

When feeding supplements out in your file you must be aware that unfortunately Farmax does not restrict the feeding of supplement. This therefore allows feeding levels to exceed demand.

The Percent of Demand tab in the Supplement screen is where you can work with supplements in the context of total feed demand. This is where you can adjust the feeding levels if supplement offered is exceeding demand.
