

## Sales Based on Liveweight

When forecasting upcoming sales for future months, you can enter sale events based on the weight of the animals at that time.

This is a valuable feature in Farmax, especially when selling your finishing lambs as it gives you an idea of how many will be ready when.

Follow the below steps to set this sale up:

1. Go to the Lambs mob -> number screen
2. Click in the month you would like to sell, in the sell column
3. Go to the New button located just below the table
4. Enter the date of sale
5. Choose From -> Whole mob -> Heaviest
6. Then choose to sell -> Above -> then enter the weight as below:

16 Dec 16

**Sell 67**  
 Mixed Lambs

From Whole Mob Heaviest

Sell Above 38 kg +

To Works

Carcass	Model	Override		
Weight	16.9 kg	kg	Before	After
\$/kg	5.33		Mean 29.0 kg	28.5 kg
\$/head	89.93		Count 1657	1590
\$ Total	6026		Number Removed	67

Comment:

Please note for this feature to work you must have updated your live weight profile under the mob level, live weight screen for the forecasted sale to be accurate.
